

# **Addiction**

**By Kelly, 17yo**

**Addiction is like schizophrenia**

**Hearing those demons in your head**

**Saying you can take a hit off that pipe**

**Snort that fat line**

**Or even put that needle in your arm**

**It's those little voices that keep putting those  
addictive thoughts through your brain**

**And the only thing you can do is listen to those voices**

**So that they will go away**

**But they only go away for the moment of the high**
